To: Veer Vikram Singh <23f3000375@ds.study.iitm.ac.in>, PARKHI YADAV <22f3002870@ds.study.iitm.ac.in>, Amit Kumar Gupta <21f1005763@ds.study.iitm.ac.in>, TUSHAR SHARMA <21f3000007@ds.study.iitm.ac.in>, SARTHAK KUMAR TIWARI <23f3000340@ds.study.iitm.ac.in>

Hi all,

Please find below the minutes of today's meeting for your reference.

Date: 19 June 2026 **Duration:** 1.5 hours **Attendees:**

- Amit Kumar Gupta – Project Manager
- Tushar Sharma – Backend Engineer & Team Lead
- Veer Vikram Singh – Frontend Engineer
- Parkhi Yadav – Scrum Master
- Sarthak Kumar Tiwari – Tester (QA)

Agenda: As per the previous meeting's conclusion, today's session was focused on ideation and planning — brainstorming features for the platform and reviewing the problem statement and shared idea sheet.

Key Discussion Points:

1. The team reviewed and discussed the "Complaints" theme from the shared idea sheet in detail, and proposed naming this concept **"Smart Complaint Triage & Routing System"** — an AI-assisted platform to capture, classify, and route citizen complaints (text/image-based) to the relevant municipal department.
2. The team discussed a possible end-to-end workflow for this idea, covering complaint submission, automatic classification and routing, duplicate complaint clubbing based on location, and resolution tracking.
3. Additional future-scope features were noted for later consideration, including geotagging with heatmap visualization, a multilingual chatbot interface, accessibility-first design, and integration of dash-cam/social media data for passive complaint collection.
4. It was agreed that all members should independently think through and bring their own feature ideas to the next meeting, so the team can collectively evaluate and finalize the direction together.
5. As emphasized in the project document, each member is to identify the **primary, secondary, and tertiary users** for their proposed ideas, to be discussed and finalized in the next session.

Action Items for Next Meeting:

Action	Owner	Due
Bring individual feature ideas for review	All members	Next meeting
Identify primary, secondary, tertiary users for proposed ideas	All members	Next meeting
Finalize the core idea and workflow as a team	All members	Next meeting

Next Meeting Focus: Each member will present their individual ideas; the team will collectively decide on the final direction and begin designing the workflow accordingly.

Regards,

Parkhi Yadav

Scrum Master
